The Maryland Association of Counties (MACo) **SUPPORTS** HB 1031 **WITH AMENDMENTS**. This bill clarifies funding requirements for medication-assisted treatment (MAT) in local detention centers. Additionally, it broadens the medications available to incarcerated individuals with an opioid use disorder. County amendments would clarify certain responsibilities, in line with a stakeholder consensus.

Providing services for incarcerated individuals with an opioid use disorder requires resources and efficiency. Local detention centers agree that this is an important time to frame the means to make these services as successful as possible, particularly with one of the most vulnerable populations in the community. Counties and State stakeholders have spent the last five years discussing ways to make these programs sustainable, and one consensus has been resoundingly clear – the required State funding has not been effectively provided. The Office of the Attorney General issued a formal letter of advice clarifying that the lack of funding from the State converts the mandate to a nonbinding option.

State and local government agencies, non-profits, and community-based stakeholders all agree: continuous funding from the State is necessary to providing these services. Local governments believe – after five years of uncertainty – that stakeholders need to address the funding challenges that have hindered implementation. MACo amendments simply clarify a few elements of the funding language and add additional flexibility for the State to fulfill the funding mandate through opioid settlement funds or a general fund appropriation. Amendments also clarify that the State may require additional information in the reporting requirements for local detention centers in order to receive the appropriate reimbursements for services.

Counties propose the below amendments to clarify a sustainable funding pathway that uses opioid settlement funds, in conjunction with state general funds, to fulfill the State’s statutory obligation from the original mandate to fund the local programs. For this reason, MACo **urges a FAVORABLE WITH AMENDMENTS report on HB 1031** (amendments detailed on next page).
