

Maryland lawmaker,

Please do not support the bill propose to prohibit liability agreements at recreational facilities. As an avid equestrian and general outdoor sport enthusiast this bill will make recreational sports cost prohibitive, as insurance companies will have to increase premiums to cover the additional risks that these facilities may be exposed to. At best, those costs will be passed on to user's, at worst (and very likely) the facilities will have to shut down and no longer operate. Please expect and require individuals to decide what risks to take and to take responsibility for themselves.

Respectfully,

Jessica Cortney Bradford
