

SB0840 is more abuse of privacy rights of individuals in Maryland. The last thing any of us need is more infringements to our individual liberties and privacy rights. Anything that is in the name of "Public Safety" **is NOT public safety**. The people who want to keep us safe have been shackled by the Democrats who have limited Law Enforcement in Maryland and their ability to keep us safe.

MUST WE do everything New York State is doing? YES, they are doing this already. PERFECT For the 15 MINUTE CITIES the UN is building in the USA. Yes, that is happening also. Please look up 2040 PLAN, there are many other plans but this one focuses on Annapolis and Takoma Park, Maryland. Baltimore has another plan.

THIS POLICE STATE BILL SB0840 IS A FARCE.

We already have scanners to capture our license plates, ask the MD State Police, ask the FBI, ask the Dept of Homeland Security, or NSA to do their jobs.

This is a waste of taxpayers money and NOT needed. Make government smaller and more efficient, not bigger and LESS EFFICIENT. SAY NO TO THIS very bad expensive bill that isn't necessary. NO MORE UNNECESSARY surveillance. STOP the surveillance state.

Suzanne Price
AACo, Maryland

Here is a recent movie about what is happening, called **POLICE STATE**, many of us cried after watching this at Arundel Mills where it debuted. I was there, everyone was brought to tears, you will be too if you are curious or brave enough to watch it.
