

Megan Moore

In favor of HB105

February 19, 2024

Honorable Members of the Committee,

My name is Megan Moore, and I am writing to express my support for HB105. I share my testimony with the hope that you will vote to advance this bill to become law.

I ask that when debating the merits of House Bill 105, requiring drunk drivers arrested for a first offense DUI sentenced to probation before judgment (PBJ) to complete 180 days on an ignition interlock device (IID) as a condition of their probation, you consider the lives of those lost and those left behind due to the decision of a drunk driver.

My son Noah was killed June 5, 2021. His death was 100% preventable. If the driver had not gotten behind the wheel, if he had not started the car, my son would still be with me today.

I am absolutely exhausted thinking, writing and talking about my son's death. Every day is a struggle.

Sincerely,

Megan Moore
