

To the Maryland Senate:

Vote NO on SB840: Don't Fall For This

More tracking and surveillance, this is an invasion of privacy. Your data will be collected and stored by law enforcement in a database, and may be uploaded to a database owned or operated by the Md Coordination and Analysis Center. Any bill that says it is about public safety, collects your private information, and uploads it to a database that has the potential (they all do) to be hacked is never a good idea. Example problems in NY:

<https://www.nyclu.org/en/automatic-license-plate-readers> I can foresee the use of these readers to make sure people are not driving outside of their 15-Minute Cities.

Sincerely,

Stacy Pedersen
