I have concerns about the bill re liability and hold harmless causes for equine professionals, boarding  
facilities etc. sb452. If this bill goes through my riding instructor will no longer be able to teach, I might  
lose a place in Maryland to board and would have no where in Maryland to keep my horses as the  
liability insurance would be prohibitive. Most horse boarding facilities and instructors run on a slim  
profit margin. Barns are already closing in our area. This bill would just accelerate the trend.  
Please do not pass this bill.
