

HB0775 – UNFAVORABLE/OPPOSE

Nelda Fink

MD District 32

This bill serves no purpose since mail-in/absentee ballots already provide the capability for people with disabilities. In fact this whole section allowing online ballot printing should be repealed. Using an online ballot return creates more burden on the local jurisdictions to provide the security in the transmitting and printing of the ballot.

Let the mail-in/absentee ballots be the only exception to the in-person voting otherwise more entry points for failure and error are introduced.

Strongly oppose this bill.

Thank you.
