

FAVORABLE
Senate Bill 84
Teacher Degree Apprenticeship

House Ways and Means Committee
March 27, 2024

Lauren Lamb
Government Relations

The Maryland State Education Association supports Senate Bill 84, which would establish the Teacher Apprenticeship Startup Grant Program in the Department of Labor to provide high school students, college students, and career changers opportunities to begin a career in education. This legislation would also authorize the Department to award up to \$225,000 to a sponsor for the development and launch of a teacher apprenticeship program.

MSEA represents 75,000 educators and school employees who work in Maryland's public schools, teaching and preparing our almost 900,000 students so they can pursue their dreams. MSEA also represents 39 local affiliates in every county across the state of Maryland, and our parent affiliate is the 3-million-member National Education Association (NEA).

As we face a statewide educator shortage, we are more mindful than ever of the need to scale programs that encourage people to consider and train for careers in public education, including Grow Your Own, apprenticeship, residency program models. Apprenticeships are proven as an effective, equitable approach to strengthening the education workforce. In 2022, U.S. Secretary of Labor Marty Walsh and U.S. Secretary of Education Miguel Cardona issued joint guidance urging states to develop Registered Apprenticeship Programs (RAPs) to address widespread educator shortages.

To promote the most promising outcomes, we urge that unions representing school employees are consulted at every stage of implementation regardless of their sponsorship status, and that they retain the option to participate as co-sponsors. MSEA supports investments in educator training for aspiring educators enrolled in teacher preparation programs and career changers working to earn their teaching

certification. This legislation presents a unique approach that would help high school students earn dual enrollment credits and appeal to those considering a career in public education.

We urge the committee to issue a Favorable Report on Senate Bill 84.
