

UNFAVORABLE to HB1515

As a single female living on a fixed income, I can not afford any more of the Maryland legislature's tax and spend. Democrats need to control their spending, or you will force more people to move out of the state, which I am prepared to do. People can not afford to buy food in the high inflated bad economy as it is, and the democrats in Maryland think it's a good idea to make it worse? ? You are out of touch with the citizens of this state. You pretend to be champions of the poor and middle class, this is not something champions do to other people. Shame on you.
