

HB0084

OPPOSE

Transportation – Major Highway Capacity Expansion Projects and Impact Assessments (Transportation and Climate Alignment Act of 2025)

Dear Committee Members:

I oppose HB0084, which requires all highway expansion projects to have Net Zero emissions or otherwise offsets emissions via other impractical initiatives. Maryland is currently in an energy crisis due to the recent push toward dependence on imported electricity. We deserve affordable and reliable energy policies and the measures in this bill are not economically practical. Therefore I oppose this bill.
