The Honorable C. T. Wilson
230 Taylor House Office Building
Annapolis, MD

The Economic Matters Committee

We are writing this in support of HB 1270 - Natural Resources - Wildland Areas - Overhead Transmission Lines.

Our reasoning is that our agricultural lands are equally important as wildlands.

We are not advocating for the construction of a transmission line. We just believe that if it is built that it should follow a path that minimizes the impact on all lands.

Our concern is that efforts to avoid wildlands will impact more of our land.

Thank you for your consideration,

Billy Bishoff
