

My name is Eli Emley and I am writing to oppose the Maryland Campus Accountability and Modernization to Protect University Students Act, SB847. I grew up in and am a resident of district 3, and am a UMD student. This bill threatens free speech by imposing restrictive time, place and manner requirements that make it more difficult to protest to oppose facism, racism and human rights violations. Rather than address these problems, this bill aims to repress opposition to it.
