RE: HB 1451 Climate Solutions Affordability Act of 2025

Position: Favorable

My name is Kirk McCauley, my employer is WMDA/CAR, we represent service stations convenience stores and repair facilities across the state as a non- profit trade group

With the financial condition of Maryland and electric cost with no end in sight, this does seem like a common sense bill. Nothing is mandated, only implemented to an extent economically practicable. Adds another tool in the box to use, as necessary.

We ask for Favorable vote on HB1451
