HB232- Maryland Beverage Container Recycling Fund and Litter Reduction Program
February 14, 2025
FAVORABLE

Honorable Chair Korman and Members of the Environment and Transportation Committee and
Honorable Chair Wilson and Members of the Economic Matters Committee:

I am writing to urge your support of **HB 232 The Maryland Beverage Container Recycling Refund and Litter Reduction Program**, also known as the Maryland Bottle Bill.

The objective of this program is to reduce beverage container litter and plastic pollution. It would add a small refundable deposit to the purchase of beverage containers. The deposit is fully refunded when the empty containers are returned to a convenient retailer or other redemption point. The bill outlines that the program would be financed and implemented by beverage producers through a nonprofit Stewardship Organization, not by the City or its residents. The Maryland Department of the Environment will provide strong oversight.

Programs like this have been operating in 10 U.S. states for decades and are the most effective policy for reducing beverage container litter. With a 10-cent deposit on most containers, it would capture 90% of beverage containers sold in the state annually, diverting an additional 3.6 billion beverage containers annually from landfills, incinerators, and the environment, reducing pollution from littered plastic bottles that break down in the environment and get washed into the Chesapeake Bay. Recent polling has found that more than 90% of Maryland's voting public would support the Bottle Bill.

Baltimore City would work to pass our own law to implement this program. Ours could include redemption in our own already existing city-run recycling and transfer stations, which will not be an additional burden to our municipal solid waste collections nor to grocery stores or other businesses. This program would benefit our residents in two main ways:

- **Shut down the Baltimore incinerator.** By diverting bottles and cans from the waste stream, the amount of waste to the incinerator and to the landfills is reduced, thus making it easier to close the incinerator. The incinerator is one of the leading causes of cancer and other health problems to areas in our city.
- **Reduce in litter.** Residents would either keep their bottles and cans to redeem another time, or residents would pick up any bottles and cans that were littered on the ground so they can redeem the deposit.

Please pass a favorable report for HB232.

Please do not hesitate to contact me should you have any questions. I can be reached on 410-396-4814 or via email at odette.ramos@baltimorecity.gov.

Respectfully Submitted:

Odette Ramos, Baltimore City Councilwoman, District 14
