

Mission: *To improve public health in Maryland through education and advocacy* **Vision:** *Healthy Marylanders living in Healthy Communities*

Testimony In Support of SB 900
Maryland Behavioral Health Crisis Response System - Integration of 9-8-8 Suicide and
Crisis Lifeline Network and Outcome Evaluations
Before the Senate Finance Committee
By: Maryland Public Health Association (MdpHA)
March 4, 2025

Chair Beidle, Vice-Chair Hayes, and Members of the Finance Committee, thank you for the opportunity to submit supportive testimony for this SB 900. This bill would define the role of 988 in Maryland’s crisis response system and establish baseline crisis system outcomes the Maryland Department of Health (MDH) must report on each year. The 988 Suicide & Crisis Lifeline was established by Congress and launched nationwide in July 2022. This universal number provides 24/7, free, and confidential crisis counseling and connection to other crisis services such as mobile crisis teams and crisis stabilization centers. These three components of someone to call, someone to respond, and somewhere to go make up the foundation of the behavioral health crisis system.

Maryland had a crisis system established in statute prior to the launch of 988. SB900 seeks to build on this foundation by incorporating 988 and establishing a clear set of outcome metrics to report on. MDH currently collects various data from local behavioral health authorities and providers, but they are not universally available in the same place. Current reporting also does not address all three components of the crisis system. SB900 proposes that MDH annually report on several basic outcomes related to volume, capacity, and performance for 988, mobile crisis teams, and crisis stabilization centers. The information would be broken down by jurisdiction, and would be disaggregated by race, gender, age, and zip code. This information would improve our collective understanding of the crisis system and better enable future planning and decision making about Maryland’s crisis response system.

Maryland has built a strong 988 and crisis response system and reliable data is critical to continue to make smart investments in the crisis response system. We urge the Senate Finance Committee to pass SB900. Thank you for your leadership and commitment to public health.

The Maryland Public Health Association (MdpHA) is a nonprofit, statewide organization of public health professionals dedicated to improving the lives of all Marylanders through education, advocacy, and collaboration. We support public policies consistent with our vision of healthy Marylanders living in healthy, equitable, communities. MdpHA is the state affiliate of the American Public Health Association, a nearly 145-year-old professional organization dedicated to improving population health and reducing the health disparities that plague our state and our nation.
