

End of Life Bill HB 1328

TO: Chair Luke Clippinger & House Judiciary Com.,
Chair Joselina Pena-Melnyk & House HGO Com.

FROM: Mrs. Janna Parker

Date: February 27th, 2025

I am providing my written testimony in support for HB 1328–
subtitled the “The Honorable Elijah E. Cummings and the
Honorable Shane E. Pendergrass Act.”

I am an over thirty year resident of Maryland, living predominantly
in Prince George’s county before and after my education at the
great HBCU in Baltimore, Coppin State University. I am politically
active and believe in the separation of church and state as well as
the practice of free will and compassion within one's life and within
one's community.

Currently, the need for Maryland to have laws for legally medically
assisted end of life care in a compassionate and comprehensive
manner for terminal patients is great.

Many Maryland families would like to have a compassionate,
peaceful, and humane option for the transition of their loved ones
who are in pain due to terminal illnesses.

I urge you to pass HB 1328.
