

Dear, Health And Government Operations Committee,

My name is Kaidence Lane Trower-Waters, and I'm in 4th grade at Prince Street Elementary in Salisbury, MD. And I'm here to make the Purple Pitcher Plant Maryland's official carnivorous plant, because the Purple Pitcher Plant is native to Maryland, and also the Pitcher Plant eats insects/bugs so our environment will be bug free. And I hope that you can help by voting yes to making the Purple Pitcher Plant Maryland's official carnivorous plant. And thank you very much for your attention to this issue. A with your help, I believe that we can make an amazing plant as our carnivorous plant. Sincerely, Kaidence Lane Trower-Waters. Thank you for reading this, and please vote yes.
