

To: House Committee on Health and Government Operations

Bill: Senate Bill 5 - Maryland Health Benefit Exchange – State–Based Young Adult Health Insurance Subsidies Pilot Program – Sunset Repeal

Date: March 20, 2025

Position: Favorable

The Maryland Academy of Physician Assistants supports *Senate Bill 5 - Maryland Health Benefit Exchange – State–Based Young Adult Health Insurance Subsidies Pilot Program – Sunset Repeal*. The bill provides for the State-Based Young Adult Health Insurance Subsidy Pilot Program to become permanent. Through the Program, the Maryland Health Benefit Exchange has been able to increase enrollment of young adults, increasing their access to healthcare services and improving health outcomes. As more young adults have enrolled in qualified health plans, the risk pool has become healthier, which lowers insurance rates for everyone.
