

Dear, Delegates of the
Health and Government Operations
Committee.

My name is Kinsley Tilghman and I am
a 4th grade student at Prince Street
Elementary in Salisbury, MD. I am
writing to you today because I believe that
the purple pitcher plant should be Maryland's
official carnivorous plant. I think it should
be because it's native to Maryland.

It also makes insects often attracted
to the purple pitcher plant by many
lures that the structures has and also
they have very pretty flowers (which in Maryland
bloom in May-June). I hope that you can help
to make the purple pitcher plant our official
beautiful plant and I hope you don't regret
your choice. Thank you very much for your
attention to this issue. With your help
I believe that we should be good to
have a pretty safe plant as our official
plant

Sincerely, Kinsley Tilghman
