

Dear Delegates Health and Government Operations

Let me introduce myself My Name is Janie M. and I'm a 4<sup>th</sup> grade Scholar at Prince Street Elementary School in Salisbury Maryland. I am writing to you today because I want to talk about making the Purple Pitcher Plant the ~~Official~~ Carnivorous Plant. Because they get rid of pests, it has cool colors like red or purple. And it has cool broad lips where the insects land. There related to venus fly traps. I hope that you can help by voting yes to making Purple Pitcher Plant the official carnivorous plant. It has Sweet liquid inside that attracts insects. Then the insects fall inside and gets stuck and dies. Thank you very much for your attention to this issue. With your help, I believe that we can have a beautiful car Nivorous Plant that get rid of pests. And it's good for our environment. Sincerely, Janie M.
