

# RaeLynn

Dear Delegates of the health and Government operations committee my name is RaeLynn I am a 4th grade student from Prince Street Elm school in Sausibury MD. I am here today because i think you should make the Purple Pitcher Plant Maryland Official State Plant. Because the Pitcher Plant generally refers to Members to nepentaceae and Sarraceae but similar Pitfall traps are employed by the monotypic Cephalotaxaceae and some members of the bromeliaceae.

Sincerely. RaeLynn Daniels
