

Dear Delegate of the Health and Government's Operation committee

My name is Wilmer and I am a 4th grade student at Prince Street elementary. I am writing this to you because I believe that the purple Pitcher plant should be Maryland's official carnivorous plant. I think that it is native to Maryland and thrives in our wet land. It is also beneficial to our environment because it helps eliminate pests. I hope that you will vote yes on house 802 and make the carnivorous plant. Thank you for your time and attention for this issue. Sincerely, Wilmer
