

Dear, Delegates of Health
and Government operations
Committee.

My name is, Heitor Marinho teodoro
Rodrigues. And i'm a Student from Prince
Street Elementary School. And my teacher
is MS. Bohlen and i'm from 4th Grade.
I am writing this letter to you
because i believe that the Purple
Picker Plant should be Maryland's official
Carnivorous Plant. the Purple, Picker
Plant is native to Maryland and it keeps
us from pests like: Mosquito's, Bug's and
Spider's. I hope that you vote Yes on
House bill 802 and make this beautiful
and helpful Plant our official
Carnivorous Plant. thanks for your time
and attention to this issue

Sincerely

Heitor
