

Noel

Dear health and government operations
Comixee.

My name is Noel and I'm a student
at Prince Street I'm in one of Mrs. Bohlen's class.
The purple Pitcher plant is a native to
many lands it keeps our environment pest free,
Saying yes would make my job to let the
Pitcher plant be the official plant it could
help the environment so if you could vote yes
that would be great. We could have this nice
plant that helps with the environment.

Sincerely From Noel
