

**Committee:** Health and Government Operations Committee

**Bill Number:** HB 664 - State Boards, Committees, Commissions, Task Forces, and Workgroups - Elimination of Citizenship Requirements and Establishment of Diversity Requirements

**Hearing Date:** February 25, 2025

**Position:** Support

---

The Maryland Affiliate of the American College of Nurse Midwives (ACNM) supports *House Bill 664 - Boards, Committees, Commissions, Task Forces, and Workgroups - Elimination of Citizenship Requirements and Establishment of Diversity Requirements*. The bill provides basic updates to Maryland's law on boards and other stakeholder bodies:

- Aligns membership requirements for the Board of Nursing with nearly all other health occupations and professional licensure boards. By removing the citizenship requirement, the bill will expand the number of experienced and qualified pool of applicants to serve on the Board. Many nurses from other countries have lived and worked in Maryland for a long-time. Their experience could add a valuable perspective to the Board; and
- Provides that appointments to boards, commissions, and stakeholder groups should be as diverse to the extent practicable. This provision reflects best practices in making appointments, as stakeholder groups should be reflective of their communities.
