POSITION STATEMENT

HB378/PG 405-25 Prince George's County – Assisted Living Programs – Inspections

POSITION:

SUPPORT

PG 405-25: This legislation ensures the safety, quality, and transparency of care provided by Prince George's County assisted living programs. Requiring Maryland Department of Health to publish inspection reports fosters greater transparency and accountability by empowering families with essential information to make informed decisions about their loved ones. These reports will provide a valuable tool for the Prince George's County Board of Health to identify facilities failing below acceptable care standards and take corrective action. These measures collectively aim to strengthen oversight, protect residents, and ensure we provide quality services to assisted living communities.

For the foregoing reasons, the Prince George's County Council **SUPPORTS HB 378/PG 405-25** and respectfully requests your favorable consideration of its position.
