To: Chair Smith, Vice Chair Waldstreicher, and the Judicial Proceedings Committee Reference: Senate Bill 444, Public Safety - Gun Buyback Programs - Destruction of Firearms Position: FAVORABLE

Dear Chair Smith and Committee Members:

On behalf of LifeBridge Health's Center for Hope I strongly support Senate Bill 444, which seeks to establish a responsible framework for gun buyback programs in Maryland. This bill represents a crucial step towards reducing gun violence and enhancing public safety in our communities.

As of 2022, firearms are now the leading cause of death among children and teens (ages 1-17), surpassing car crashes, overdoses, and cancers – we must act now to protect children BEFORE the violence occurs. Thoughts and prayers are not able to triage bullet wounds. In 2022, there were over 48,000 firearm-related deaths in the United States, with an average of 132 people dying from firearm-related injuries each day.

Two-thirds of guns recovered in crimes in Maryland are traced to out of state sources. Maryland now has one of the HIGHEST rates of out-of-state gun imports in the United States, according to the Giffords Law Center to Prevent Gun Violence.

### **Gun Buyback Programs Work**

Gun buyback programs have been implemented in various cities and states across the United States with the primary goal of reducing the number of firearms in circulation. These programs offer several key benefits:

- 1. Reduction in Firearm Availability: Gun buyback programs can provide a safe and anonymous way for individuals to surrender firearms and reduce the overall number of guns in the community. This can lead to a decrease in the likelihood of firearms being used in crimes, accidents, or suicides.
- 2. Public Awareness and Education: Gun buyback events often serve as platforms for raising awareness about the risks associated with firearms and promoting safe storage practices. They provide an opportunity to educate the public on the importance of responsible gun ownership and the potential dangers of having unsecured firearms in the home.
- 3. **Community Engagement**: Gun buyback programs foster collaboration between law enforcement, community organizations, and residents. This bill encourages partnership by establishing a framework for a community organization to partner with law enforcement or other group to facilitate the destruction of firearms. By working together, communities can build trust and develop comprehensive strategies to address gun violence and its root causes.
- 4. **Cost-Effective Violence Prevention**: While the empirical evidence on the direct impact of gun buybacks on reducing gun violence is mixed, the relatively low cost of these programs compared to other violence prevention initiatives makes them a worthwhile investment. Even if a single life is saved or a single crime is prevented, the benefits far outweigh the costs.

### **Examples from Other States and Countries**

Several states and countries have implemented gun buyback programs with varying degrees of success:

- 1. Australia: Following the Port Arthur massacre in 1996, Australia implemented a mandatory gun buyback program, resulting in the surrender of over 650,000 firearms. This program is credited with significantly reducing gun violence and mass shootings in Australia.
- 2. New Jersey: In 2019, New Jersey's gun buyback program collected over 2,000 firearms in a single day across multiple locations. The program was part of a broader effort to reduce gun violence and promote public safety.
- 3. California: Los Angeles has conducted several gun buyback events, with thousands of firearms turned in over the years. These events are often held in partnership with community organizations and offer incentives such as gift cards in exchange for firearms.
- 4. Maryland: Maryland has had success in gun buybacks. Community members anonymously and voluntarily turned in their firearms, receiving \$100 food store gift cards for functioning handguns, rifles, and shotguns, and a \$200 food store gift card for functioning military assault-style weapons and privately manufactured firearms ("ghost guns"). All firearms were accepted with no identification requested and a no-questions-asked policy by law enforcement. The August 2024 Rockville event yielded 270 firearms, with all cosponsors deeming the event a huge success.

### Why We Favor Senate Bill 444 -

Senate Bill 444 is designed to establish and facilitate responsible and effective gun buyback programs in Maryland. The bill includes several provisions that ensure the program's success:

- 1. **Mandatory Destruction**: The bill requires that all firearms surrendered through the program be destroyed, including all components and parts. This ensures that these weapons are permanently removed from circulation and cannot be misused.
- 2. **Collaboration**: While SB444 requires the entity hosting the buyback to destroy the guns, it allows for the entity sponsoring a buyback to partner with law enforcement or another organization to help satisfy the requirement, thus making it easier for any entity to sponsor the buyback program, as they do not have to do the destruction themselves.
- 3. Accountability: For anyone hosting a buyback, they would be required to destroy the weapons; failure to do so would be in violation of SB444, resulting up to \$10,000 in fines, and loss of a dealer's license.

Every gun turned in is one less gun that could be used in a serious crime, homicide, suicide, or domestic violence incident, or accidentally discharged by a child. Keeping guns off our community streets, out of the hands of our youth and out of our schools are our highest priorities. This bill will create great opportunities for any person who would like to dispose of an unwanted firearm voluntarily, anonymously, and safely.

For all the above stated reasons, we request a Favorable report for Senate Bill 444.

|       |   |

POSITION: SUPPORT WITH AMENDMENTS

The Maryland Chiefs of Police Association (MCPA) and the Maryland Sheriffs' Association (MSA) SUPPORT SB 444 WITH AMENDMENTS. This bill addresses gun buyback programs and requires that firearms traded in for compensation be destroyed and every component and part attached to the firearm be made permanently inoperable and unrepairable.

Several law enforcement agencies across the state operate gun buyback programs. Serial numbers on all guns acquired through this process are run to ensure the guns were not stolen and have not been used in a crime. If the gun has been used in a crime it is held as evidence and if stolen, it may be returned to the lawful owner. Once this is complete, in most cases, firearms acquired in this manner are melted down and destroyed. However, there is a provision in law to allow for the conversion of the firearm for agency use.

MCPA and MSA do not object to adding more structure to this process but would like to ensure the statute is clear that an investigation takes place involving the firearm and that the firearm may be returned to its lawful owner, kept as evidence, or destroyed.

On page 3, in line 5, following (II) insert "AND (III)" and in line 9, following "(II)" insert

A LAW ENFORCEMENT AGENCY OPERATING A GUN BUYBACK PROGRAM MAY CONDUCT AN INVESTIGATION INVOLVING THE FIREARM AND MAY RELEASE THE FIREARM TO A LAWFUL OWNER, MAINTAIN THE FIREARM AS EVIDENCE, OR DESTROY THE FIREARM. (III)

For these reasons, MCPA and MSA SUPPORT SB 444 WITH AMENDMENTS and urge a FAVORABLE committee report as amended.

### Senate Bill 444 Public Safety – Gun Buyback Programs – Destruction of Firearms UNFAVORABLE

Depending on how a person interprets the language in Senate Bill 444, it is either an entrapment scheme or a Trojan Horse.

Gun buybacks as they are generally conducted involve and encourage the violation of multiple sections of Maryland law.

Entrapment Scenario:

Citizens who transport a handgun to a buyback and who do not have a Maryland permit to wear and carry a handgun are in violation of Criminal Law §4-203 and Public Safety §5-303. Under current law a person who wears, carries or transports a handgun in violation of the above two statute sections risks becoming a prohibited person for life.

Citizens who sell a firearm or firearms at a gun buyback, and the person or entity that purchases a firearm or firearms during the buyback, are potentially in violation of one or more of the following statute sections:

| Public Safety §5-106  | Dealer's license  |
|-----------------------|---|
| Public Safety §5-117  | Application for regulated firearm required.                       |
| Public Safety §5-117. | 1 Handgun qualification license required for purchase of handguns |
| Public Safety §5-118  | Firearm application   |
| Public Safety §5-121  | Investigation of firearm applicant                                |
| Public Safety §5-124  | Secondary transactions  |
| Public Safety §5-128  | Purchases within 30 days In general                               |
| Public Safety §5-129  | Purchases within 30 days Multiple purchases allowed.              |
| Public Safety §5-130  | Gun shows   |
| Public Safety §5-133  | Restrictions on possession of regulated firearms                  |
| Public Safety §5-134  | Restrictions on sale, rental, or transfer of regulated firearms   |
| Public Safety §5-136  | Straw purchases   |
| Public Safety §5-138  | Sell, transfer or disposal of stolen firearm prohibited.          |
| Public Safety §5-144  | Knowing participation in violation of subtitle                    |
| Public Safety §5-203  | Lost or stolen regulated firearms.                                |
| Public Safety §5-204. | 1 Purchasers of rifles or shotguns                                |

### Trojan Horse Scenario:

Based upon the interpretation of the terms "person or entity" (the term "entity" is not defined) Senate Bill 444 creates an entirely new section of statute in which the previously listed sections of law seem no longer applicable, and the "person or entity" is empowered to purchase and possess as many firearms as their financial resources allow. The only limitation is that at some unspecified time in the future the person or entity may (emphasis on "may") contract with law enforcement, an unspecified organization or unspecified business to destroy the firearms. Prior to that event the person or entity is free to possess and use their newly-acquired firearms. Because there are no record keeping requirements, there is no means to audit or account for the firearms to the black market.

What is not obvious is the chilling effect it will have on dealers and local law enforcement agencies. Because the firearms must be destroyed, their trade-in value is reduced to zero. Small law enforcement agencies that rely on trade-ins when upgrading their service firearms will now be forced to pay full price for each firearm.

### Constitutional Issues:

Not unexpectedly, a percentage of the guns will prove to be stolen (see attachments). To mandate their destruction is a clear violation of the "takings clause" in the 5<sup>th</sup> Amendment to the United States Constitution. Senate Bill 444 contains no provisions to prevent these violations of existing laws from taking place.

We strongly urge this Committee to reject this ill-conceived bill by returning an immediate unfavorable vote.

City staff has collected the records in our custody that we believe are responsive to your request, and they are attached to this email.

Some information has been redacted because it is not responsive to your request (serial numbers and gift card information), and GP § 4-352 (Records Relating to Public Security) which relates to the storage location of the weapons. Regarding the request for information about firearms entered (or to be entered) into the ATFE Crime Gun System, the information is being withheld under 18 U.S.C.A. § 923(g) and the Tiahrt amendment as applied via § 4-301 (a)(2)(ii) where, by law , the public record is privileged or confidential based on a federal statute or regulation. You may seek judicial review of the City's decision, pursuant to § 4-362 of the General Provisions Article of the Annotated Code of Maryland.

If you have any questions regarding this information, please do not hesitate to contact me at 240-314-8106. Thank you!

Regards,

Chairman and members of the committee,

My name is John Weber and I represent the National Rifle Association and our members in Maryland. The NRA is opposed to SB 444.

Gun buybacks can be costly and time consuming for state and local governments entities. Mandating destruction of firearms will only increase these costs. Additionally, there have been examples in the media of entities improperly disposing of firearms.

Law enforcement and other entities who choose to engage in gun buyback programs should not be mandated to destroy firearms and accessories. These items can be used by law enforcement agencies or sold by law enforcement to a person who is legally able to possess them.

Thank you,

The Wr

Good day -

My name is William C. Mauer, and I reside in Bowie, MD,

I am opposed to SB0443. This bill would mandate the destruction of potentially valuable Curio and Relic (C&R) and antique firearms that are of high value and/or of historical value.

Thank you for your consideration.

#### POSITION ON PROPOSED LEGISLATION

| DATE:        | February 5, 2025      |  |
|--------------|-----------------------|--|
| BILL NUMBER: | Senate Bill 444       | POSITION: Letter of Information            |
| BILL TITLE:  | Public Safety – Gun B | Buyback Programs – Destruction of Firearms |

#### **REVIEW AND ANALYSIS**

This legislation authorizes a public or private person or entity to operate a gun buyback program. The person or entity may contract with law enforcement, an organization or business partner operating a gun buyback program to destroy all firearms, including every component and part attached to the firearm, that is traded in at a gun buyback program. The destruction shall make every firearm and every component and part attached to the firearm inoperable and unrepairable.

The Department of State Police does not participate in gun buybacks. Few law enforcement agencies have partnered with non-profit organizations to establish a firearm buyback program. The law enforcement agency collects the firearms turned in at an established location and in exchange, the non-profit gives the firearm donor some type of renumeration, in the form of cash, credit card or gift cards. Due to laws and regulations, that they are subject to, firearms dealers and federal firearm licensees, generally, do not participate in the buybacks.

Typically, buybacks are a "no questions asked operation". A firearm is dropped off, the person gets some type of payment, and the person leaves with no questions asked. As written, the bill does not allow law enforcement, that may be given a stolen firearm, the ability to return the recovered firearm to its lawful owner. Additionally, this legislation prohibits the law enforcement agency from retaining a crime gun as evidence should a firearm be received from a buyback program.

Senate Bill 444 does state that a public or private person or entity may operate a gun buyback program on their own. The participation with law enforcement is voluntary. As written, by making law enforcement or an FFL's participation voluntary, this legislation creates a loophole in the current regulatory scheme. This language creates a new process that allows a public or private person or entity to purchase or accept the transfer of a firearm under the guise of a "gun buyback program" without going through a law enforcement agency, the Department of State Police or the federal NICS background check. This legislation will also allow for a public or private person or entity to hold a gun for an unlimited amount of time before destruction of the firearm and its component parts.

The Department of State Police looks forward to working with the committee on amendments should they wish to move forward with the bill.
