

**Immigration Enforcement – Sensitive Locations – Guidelines and Policies  
(Protecting Sensitive Locations Act)**

**FAVORABLE**

**To: Chair Delegate Luke Clippinger, Vice Chair Delegate J. Sandy Bartlett, and  
all members of the House Judiciary Committee.**

**From: Lynn R Mortoro, Maryland citizen**

**Date: February 27, 2025**

**Chair Delegate Clippinger, Vice Chair Delegate Bartlett and all members  
of the House Judiciary Committee.**

**Thank you for the opportunity to write testimony for this important bill.**

**As a country, I feel that we are supposed to watch out for each other. That  
was from the very beginning.**

**Also, from the beginning of the country, we have a history of being  
intolerant of others, including those who preceded us here and those who  
were brought involuntarily.**

**Immigrants, which include nearly all of us, built this country. We built  
roads, buildings, farmed and so much else. Many have been treated  
unfairly.**

**We now have a group that may, or in some cases, may not have come  
without proper documentation. Many have come in fear from another  
place, but they all came and most are hard working people who just want a  
chance to live.**

**Some are now afraid. They're afraid to have children go to school, they're  
afraid to get medical care, and practice their religion. All of which are  
basic rights.**

**We need to protect people as we can. Our country will be better and  
stronger. We need to find different solutions other than raids and  
deportations.**

**I ask for a FAVORABLE Report.**
