

and we are all here with him, hoping
and praying he hears us. Doctors telling
us JUST PRAY. Jamari had to be transported
to Washington hospital for another procedure.
Once again hoping and praying for change.

July 10 Jamari's Death Day a day
I will never forget Hurt, Pain, Damage,
Change. How could a person take someone's
Life and only get 10 years that's a slap
on the wrist. My nephew still had his
Life in front of him so young just got
a manager position. Graduated he had
drive, was always smiling and there
whenever you needed him. Good Personality
Respectful and always had a good heart.

In conclusion of this letter my family
and I are asking that with the kindness
of you hearts to place Jamari's Law in
Enactment. This helps to prevent others
from driving under the influence and
increase maximum penalties.

Thank you for Taking The Time To
Read My Letter.
