Jurisdiction: Baltimore County
Bill: HB 0653 Undocumented Immigrants
Position: Support

For the purpose of requiring State or Local correctional facilities in MD to transfer undocumented immigrants to US Dept. Of Homeland Security:

It is incumbent upon the MD officials to enforce our Constitution while protecting Marylanders to further murder, rape, fentanyl and more here in Maryland!

Further, Maryland State is financially broke! We can not properly educate our own Maryland citizens due to overcrowding in schools. As a teacher in BC schools, I know first hand how crowded our classrooms are and how the illegal immigrants require MUCH, much time of the teachers, which short changes the English speaking citizen/children in our school system. We can no longer afford to hurt our own children's education. PLUS, due to overspending here in MD we can no longer afford to keep these children and families in our state. It is the burden of their home countries to educate them, feed them and give them jobs.

Protect Maryland Citizens NOW!

Thank you for your consideration.

Respectfully submitted,

Jean Benhoff
