

Testimony For HB1008

Honorable Delegates

I support:

- prohibiting the State or a local jurisdiction from imposing or levying a vehicle-miles-traveled tax or certain other similar fees, tolls, or taxes;
- prohibiting the State or a local jurisdiction from requiring the installation of a device in or on a privately owned vehicle to facilitate the reporting of vehicle miles traveled.

This is the first step in the government controlling one's use of privately owned vehicles. Once a monitoring device is installed, then the government can monitor where one goes. Soon, the government can decide how many miles one can travel per period or how far from home one may travel (to save the planet). This monitoring device can be the beginning of tyranny by controlling our freedom to move about as we see fit.

Please enter a favorable report for HB1008.
