

HB0156 – please keep girls sports FAIR to the girls who have worked so hard to achieve what they have. To allow males in women’s sports is absolutely sexist and sets women back.

HB0197 – keep power in the hands of the local school boards. Each county is different, and is better managed at the local level. Garrett county is not going to have the same issues at Montgomery county and should be handled by the people that live and work there.

HB0161 – Do not take away my right to educate my son in the way that I see most fit, which is to teach him myself. I absolutely do not want anyone in the school system teaching him about his body. I am the most qualified to teach him about his health and body, as first and foremost I am his mother. I am also an RN, and can guarantee I’m more qualified to teach him than anyone in your school system.
