

## Testimony Against SB0002

Honorable Delegates

Please enter an unfavorable decision about SB0002.

Currently, if there is a vacancy in a Delegate or Senator position, the Governor appoints a candidate nominated by the central committee of the party of the departing person, as was done in District 31 just recently. This process worked well in Anne Arundel County and ensured that a representative from the same party would be selected. The Central Committee members were elected by the people to make decisions like this.

The process is not broken and has worked for decades. It should not be converted to a special election.

Please enter an unfavorable report for this proposed Constitutional amendment.
