Jurisdiction: Baltimore County
Bill: SB0293
Position: Oppose

For the purpose of requiring County Boards of Education – Anti-bias Training for Members - Requirement (County Board Member Anti-bias Training Act).

I am opposed to requiring this anti-bias training as this is discriminatory to those who carry no bias toward others. Or worse assumes that everyone has negative biases which are discriminatory. This bill assumes that everyone regardless of race, gender or creed is a biased individual. This is a false, incorrect assumption and thus violates all those persons required under this notion of bias, unfairly.

Thank you for your consideration.

Respectfully submitted,

Jean Benhoff
