

**To: House Delegates Ways and Means Committee**

**Subject: HB0156**

**Date January 29, 2025**

**Dear Delegates,**

**HB0156 – Fairness in Girls’ Sports Act**

The Baltimore County Republican Party completely **SUPPORTS** HB0156 Fairness in Girls Sports Act for interscholastic, intramural, Junior Varsity and Varsity Teams.

The male biological sex has XY chromosomes and are generally larger and stronger in stature than the female biological sex with XX chromosomes. This creates a physical superiority of XY males over the XX females in the sports arena where strength and stature are key components of play and outcome of sporting events. This gives the (XY) male natural dominance in sporting events over the girls during competition.

A person can change their appearance, identify as another sex, change their physical body through surgery, but they **CANNOT** change their chromosome makeup. An XY (male) person will always be XY and have the physical superior strength and stature of an XY person. An XY person cannot make themselves an XX person no matter what changes they make to their body.

The same can be said of a (female) XX person. No matter what changes they make to their body, an XX female **CANNOT** be an XY male and will **NOT** have the physical stature of an XY male.

This physical inequality of the biological male and female sexes cannot be changed and therefore should **NOT** be forced into the girls’ sports arena. This does **NOT** create equality of the sexes, but rather creates inequality and dominance over girls in the sports arena robbing them of the opportunities to play and win at sports events.

In addition, male and female competition raises the chance of injury to the females by the stronger males in the sports arena.

Biological females (XX) should be able to have female sporting leagues where they can compete fairly against other females and not worry about being dominated by an XY biological male.

**PLEASE SAVE GIRLS SPORTS!!**

Thank you,

Patricia Fallon
