

House Bill 1180 – Support

**House Committee on Ways and Means
“Education - Primary and Secondary Schools - Alternative School Options (Right to Learn Act)”
Hearing date 3/3/25**

Chair and committee members.

This Bill will introduce incentives for school administrators and teachers to provide a quality education to students residing in their school district. When parents vote with their feet it sends signals that improvements must be made.

It’s the only way for parents to act on a poor-quality public product.

Please return a **FAVORABLE** report for HB 1180.

Thank you for your time and consideration,

Chuck Thompson
