

Testimony For HB0525

Honorable Delegates

Please enter a favorable decision for HB0525.

This bill is much simpler than the 2024 version that I supported after massive amendments were made.

I support:

- Prohibiting a person from using fraud to influence or attempt to influence a voter's voting decision;
- Amending the definition of fraud to include the use of synthetic media; and
- Defining 'synthetic media' as an image, an audio recording, or a video recording that has been intentionally created or manipulated with the use of generative artificial intelligence or other digital technology to create a realistic but false image, audio recording, or video recording.
