

Testimony Against SB0324

Honorable Delegates

Please enter an unfavorable decision about SB0324.

I am opposed to

- Requiring each member of a county board of education to complete certain antibias training at least once during the member's term; and
- requiring that the antibias training be conducted separately from certain other required public school employee training.

I view this proposed bill as an insult to every County School Board member.

Are all the Delegates and Senators, and their respective staffs required to take an annual anti-bias class?

Unless this is occurring for the General Assembly, then the sponsor has a lot of nerve imposing this standard on every County Board of Education member.

Please enter an unfavorable report about SB0324.
