RE: HB0156

Dear Ways and Means Committee:

Protecting girls in girls' sports is essential. The majority of Marylanders oppose boys in girls' sports. Between males having an unfair advantage not only with biological differences, but also have the ability to sexually assault a female or view her in a private moment of undressing or showering in a locker room. A male has absolutely no place in female sports. Proposing such nonsense actually violates Title IX, which was written with the full intent to protect girls (not boys pretending to be girls). To that end, the DPTC favorably supports HB0156 as common-sense legislation.
