RE: SB 337/HB 0142

The League of Women Voters has consistently sought transparency in government across all agencies and boards in an effort to promote citizen awareness of government activities and decisions.

To this end, **we strongly support SB 337/HB 0142** that would require local Boards of Election to record, archive, and make available their meeting agendas and minutes for a specified period of time.

We would appreciate your support of this important tool for citizen awareness.

Sincerely,

Sandra Raviv and Gladys White
LWVCC Co-Presidents
