House Ways and Means Committee

**Favorable – HB 156**

This bill intends to protect fairness - a level playing field – in girls’ sports, which I support, as does majority popular opinion, because it is just common sense.

I wish to submit a reference to this 82-page [expert report by Dr. Gregory A. Brown](#) in support of the intent of this bill HB 156. He is Professor of Exercise Science in the Department of Kinesiology and Sport Sciences at the University of Nebraska Kearney, which documents his findings of the differences in athletic abilities between biological males and females as manifested in competitive sports.

Thank you for your consideration.

Peggy Cairns
