

Election Law - Polling Places - Establishing Voter Identity (Voter Privacy Act of 2025)

I am writing in support of HB0115, with an amendment. Having the requirement to establish proof of identity will significantly cut down on election fraud. People will not be able to vote multiple times, recite a fraudulent address in order to vote, or vote as a non-citizen. I would make an amendment to state that multiple forms of picture ID can be requested and proof of citizenship as well, **and even more desirable is using blockchain technology for voting.** Voter ID cards are not good enough since the voter rolls are no longer reliably correct or up to date. Driver licenses alone are no good because they can be faked. These types of measures are necessary to bring election confidence back to Maryland voters. Thank you.
