

Subject: Unfavorable: No Distracted Learning Act

Date: January 29, 2025

From: National Federation of the Blind of Maryland

15 Charles Plaza, #3002

President@nfbmd.org

To: Ways and Means Committee

The National Federation of the Blind of Maryland urge the Ways and Means Committee to vote against HB 0192 as it is currently written. The intention of the bill is laudable, but in reality, it will create more problems than it solves.

The section of the bill that is problematic is “(C) (3) A policy adopted under this section may not prohibit a student with an Individualized Education Program, a Section 504 plan, or any other documented health issue that requires the use of an electronic device from using the student’s cellular phone for that purpose.” The student who has an Individualized Education Program (IEP) loses the confidentiality of their plan as soon as they use their phone. This confidentiality is an essential and longstanding aspect of these programs. Without it, the student may then be asked inappropriate questions about their disability by their peers. They may even be bullied, or worse, ostracized. This treatment will cause irreparable damage to both the individual student and their family. Persons with disabilities are not obligated to reveal their disability. Certainly, ensuring our students’ focus in school is of utmost importance, but you don’t solve one problem by creating another.

Please vote unfavorable on this bill.
