

Hello House Appropriations Committee,

I am a parent of two students at Frederick Classical Charter School (FCCS). FCCS is so important to our area and to me because it has allowed my children to have a vigorous education, along with a robust social group. Facilities funding is so important to have the same opportunities as other schools. Other schools have education buildings as well as outdoor areas for the children to thrive. This allows our students the same opportunities as other public school students. Our teachers, who are part of the public school system, would also greatly benefit from equal funding to charter schools.

Thank you.

Mu-Tin Wultsch
