

Chair and Members of the Committee,

My name is Alex Glaser, and I am writing in strong support of HB1221.

Lindsay Wiener was my friend from Tulane. She was kind, thoughtful, and deeply loved. Jillian and Lindsay continue to mean so much to so many of us.

This bill represents a meaningful step toward ensuring that short-term rentals meet basic fire safety standards. When people stay in these homes, they should be able to trust that working smoke alarms and clear safety measures are in place. These are simple protections that can make a real difference.

Supporting this bill is one way to honor Jillian and Lindsay and help protect other families in the future.

I respectfully urge a favorable report.

Sincerely,  
Alex Glaser
