The Maryland Episcopal Public Policy Network offers favorable testimony in support of HB514. Our congregations serve people throughout Maryland.

If federal enforcement of the Johnson Amendment regarding the use of political speech by a nonprofit is weakened or eliminated, nonprofits could be pushed into political terrain they were never designed to occupy. Charitable organizations could become attractive targets for political operatives seeking platforms, influence, or legitimacy. The very institutions people turn to in moments of vulnerability could be pulled into partisan conflict.

HB514 ensures that if federal protections are rolled back, Maryland charities and religious organizations will still be governed by the same nonpartisan standards that have guided them for decades. The bill does not create new restrictions on charities or churches; it simply preserves existing ones. This bill incorporates the long-standing federal language and its well-established interpretation into Maryland law. Most important, this would only take effect if federal action renders the Johnson Amendment unenforceable. In other words, this is a contingency plan, not an expansion of government authority. We do not believe that partisan politics should be part of a faith institution's mission or purpose. For these reasons, the Maryland Episcopal Public Policy Network urges this committee to issue a favorable report on HB514.
