

To the Political Office of my District,

I am reaching you in regards to the SB 4 bill that's being discussed right now. I can testify the importance of my freedom of speech and religion and how it shapes not just the peace and harmony of people around me but also the expression I can use in which I think makes America so great. With how the narrative of today's media goes and opposition when it comes to constitutional rights, I firmly believe, when done in love and expression of using our democracy, no one should be shunned and quieted for speaking to what they believe and have it be heard or influenced for our government, local, state, and federal. Maryland should never use tax-code to silence the pulpit of faith-based charities nor any platform. So, I plead with you to vote NO for the SB 4 bill as this bill is unconstitutional and an attack on our freedom of speech, religion, and liberty for not just the autonomy of churches but also faith-based charity. If any further information is needed I can be contacted below with my information and will willingly participate whatever it may take for my voice to be heard in my faith.

Thank you,
John Oh
