

## Support for Senate Bill 845 - Maryland Voter Registration List Accuracy and Integrity Act

David Morsberger

Davidsonville, Maryland

The current law and processes keep confirmed deceased voters on the voter registration list longer than absolutely necessary. Leaving confirmed deceased as determined by official sources on the voter registration list exposes a vulnerability that can easily be exploited by those in our society who have and want to commit voter fraud.

The updates proposed in SB0845 provides for the immediate closure of the vulnerability AND provides an acceptable remedy for the Local and State Board of Elections in the rare case there was an issue with the data received from the official sources.

In addition, the state provides for same day registration if the voter shows up to vote and their name was removed in error.

The changes proposed in Senate Bill 845 will make our voter registration list stronger and will help in restoring the needed trust in our election system.

Please vote for a favorable ruling for SB 845
