

# THE CITY OF BRUNSWICK MARYLAND

February 5, 2026 | WEST POTOMAC STREET · BRUNSWICK, MARYLAND 21716 · (301) 834-7500

Senate Education, Energy, and the Environment Committee  
Senator Brian Feldman, Chair  
Senator Cheryl Kagan, Vice Chair

The City of Brunswick urges you to support SB342, the Maryland Beverage Container Recycling Refund and Litter Reduction Program, also known as the Maryland Bottle Bill.

The objective of this program is to reduce beverage container litter and plastic pollution. It would add a small refundable deposit to the purchase of beverage containers. The deposit is fully refunded when the empty containers are returned to a convenient retailer or other redemption point. The program would be financed and implemented by beverage producers through a nonprofit Stewardship Organization, not by the City or its residents. The Maryland Department of the Environment will provide strong oversight.

Programs like this have been operating in 10 U.S. states for decades and are the most effective policy for reducing beverage container litter. With a 10-cent deposit on most containers, it would capture 90% of beverage containers sold in the state annually, diverting an additional 3.6 billion beverage containers annually from landfills, incinerators, and the environment, reducing pollution from littered plastic bottles that break down in the environment and get washed into the Chesapeake Bay. Recent polling has found that more than 90% of Maryland's voting public would support the Bottle Bill.

This program would benefit our residents by reducing unsightly litter, increasing recycling, and reducing the amount of municipal solid waste that the City must collect and process. The City would not be required to implement or enforce the program but has the option to set up its own redemption center and receive a handling fee per container to finance it, paid for by the Stewardship Organization.

On behalf of the Council of Brunswick, I urge you to support SB342, to reduce beverage container litter and plastic pollution, provide cleaner parks and waterways, and create savings for municipalities and local taxpayers.

Sincerely,

  
Nathan Brown, Mayor
