

Hello. My name is Lisa Siano. I live in Columbia MD.

I am writing to urge a favorable report on SB 02.

Gas and electric companies should be blocked from charging extra to pay for bonuses for their executives, as BGE rates have continued to rise far faster than wages. There is no reason hard working citizens should have to pay extra for bonuses for executives when workers can't afford the rates as it is.

Thank you for your kind attention.
